2017 8th International Conference on E-business, Management and Economics (ICEME 2017)

Oct 27-29, 2017, Birmingham, UK

Dear Colleagues,

My name is Yixun Shi. On behalf of the International Economics Development Research Center (IEDRC), I am writing to invite you to participate in the joint conference of the 2017 International Conference on Business and Economics Research (ICBER 2017) and 2017 International Conference on E-business, Management and Economics (ICEME 2017), to be held in Birmingham, UK from October 27 to 29, 2017.

I am honored to serve as the conference chair of the joint conference and to have this opportunity to extend the invitation to you. Our conference is sponsored and organized by the IEDRC. An important part of IEDRC's broader efforts is to play an influential role and promotes developments in economics theory and applications in a wide range of ways. The mission of IEDRC is to foster and conduct collaborative interdisciplinary research globally, in the state-of-the-art methodologies and technologies within its areas of expertise. Our conferences are aimed to providing researchers, scientists, engineers, scholars and students an opportunity to exchange and share their experiences, new ideas, and research results, and discuss the practical challenges encountered and the solutions adopted. IEDRC has held similar conferences in the past with very impressive and positive results. IEDRC seeks to encourage regional and international communications and collaborations; to promote professional interaction and lifelong learning procedures; to recognize outstanding contributions of individuals and organizations; and to encourage researchers to pursue studies and careers in developments of theory and applications.

We look forward to meeting with you in Birmingham this October. We look forward to having the opportunities to share our views on how to best meet our research challenges, and to find ways for us to contribute more in developing networks among researchers. We hope that this joint conference will also generate new ideas and initiatives to promote sustainability of all our related efforts. Finally, we thank you all for your interests in our conference.
